

D2d Manual of Procedures (MOP)
Section 2. Policies and Procedures
Appendix 3. Data Sharing Policy
Attachment A. Data and Sample Sharing Form

Study name: Vitamin D and type 2 diabetes (D2d study)

Coordinating Center PI: Anastassios G. Pittas, MD MS
 Contact information: Patricia Sheehan, RN MPH
 Address: Division of Endocrinology, Diabetes & Metabolism
 Tufts Medical Center
 800 Washington St, #268, Boston, MA 02111
 E-mail: d2d@tuftsmedicalcenter.org

Steering Committee Chair & PI: Anastassios Pittas, MD MS
 Address: Division of Endocrinology, Diabetes & Metabolism
 Tufts Medical Center
 800 Washington St, #268, Boston, MA 02111
 E-mail: apittas@tuftsmedicalcenter.org

NIDDK Project Official: Saul Malozowski, MD
 NIDDK Project Scientist: Myrlene Staten, MD
 Date study was funded: June 1, 2013 / U01DK098245
 Date of renewal(s): TBD
 Date of end of intervention: TBD

Name of dataset	Dates included	Proposed date or time-line for sharing	Policy for when data will be shared with other investigators
Baseline data	TBD after recruitment is complete	Two years after recruitment is complete (last randomization visit) or within 6 months of publication date	Two years after recruitment is complete (last randomization visit) or within 6 months of publication date
Primary outcome publication – analytic dataset	TBD after database lock	Two years after database is locked for analysis or within 6 months of publication	Two years after database is locked for analysis or within 6 months of publication
Secondary outcome(s) publication(s) – analytic set(s) - LIST	TBD after database lock	Two years after the database is locked for analysis of these outcomes	Two years after the database is locked for analysis of these outcomes
Entire dataset from intervention study	TBD after last participant has completed the study.	Three years after last study contact (FDAAA’s primary completion date)	Three years after last study contact (FDAAA’s primary completion date)
Analytic dataset from major papers	TBD at time of publication	Six months after publication appears on line	Six months after publication appears on line
Ancillary studies (list)	NA	NA	NA
Pilot studies (list)	NA	NA	NA
